

RHINO™

Cold Laminator | by Graphic Products, Inc.

Preserve and protect documents with Rhino cold laminator.

Rhino requires no heat or electricity, so you can simply turn the handle—your documents will come out with a durable gloss laminate.

Align with Accuracy

Use tray alignment marks for perfectly aligned lamination and to laminate multiple documents at once.

Load Supplies Quickly

Get started immediately with an easy-to-access front loader.

Safeguard Your Most Important Documents

Expand Rhino's rollers to accommodate poster board, banners, retail displays, maps, and other materials up to 3/16" thick and 25" wide. Perfect for photos and heat-sensitive items, Rhino won't damage your documents.

Save Time, Money, and Energy

Use the hand crank to laminate just what you need. The innovative design saves energy, reduces maintenance, and ensures Rhino is ready when you need it—all without electricity, noise, heat, or fumes.
