Introduction

Welcome to Express Electrical

For almost 40 years Express Electrical & Engineering Supplies Limited have been committed to providing the highest levels of customer service in the supply of cable and wire accessories.

The engineering masterpiece that is the Titan Crane sits towering over our office where the business was originally established in 1985. This famous icon on the banks of the river Clyde serves as a daily reminder to the legacy of our local area and ensures we stay true to the same core values that the family run business held when it opened the doors for the first time : *"the number one priority in our business is our customers"*.

We are aware how important it is for you to have the products you need, when you need them, and as such every member of our team is dedicated to meeting your expectations.

With a large stock holding, extensive product knowledge and the ability to deliver globally it ensures that we have the platform needed to provide a service second to none in the market. Coupled with our close relationships with industry leading brand names it allows us to supply market leading products suitable for the most demanding applications and environments.

Our own brand product lines of expressMARK, expressTERM, expressFIX and expressPRO offer a range of quality products at a competitive price point available from one single provider. Offering solutions in cable identification, termination, fixing and protection they are used across all industry sectors from local electrical contractors through to large scale international projects.

We strive to ensure our customers receive total service satisfaction. Let Express put you first!

Our Brands

express**MARK**

An extensive range of cable and wire identification solutions suitable for use across a wide range of environments and applications.

express**FIX**

Secure cables and wires with our range of stainless steel and nylon cable ties, bases, mounts, clips, fixings and application tooling.

express**TERM**

A cable termination range of products including pre-insulated terminals, bootlace ferrules, copper tube terminals, cable glands and crimp tools.

express**PRO**

Offering a range of cable insulation and protection products that include heat shrink tubing, braided sleeving, spiral binding and flexible conduit.

express**LOTO**

Ensure you have a safe working environment for your onsite personnel with this range of electrical and mechanical lockout tagout products.

Our Supplier Partners

Our Products

- Critchley markers
- On site printing systems
- Heat shrinkable sleeves
- Insert wire markers and carriers
- Tie-on one-piece cable markers
- Self-laminating wrap around labels
- Adhesive labels and tapes
- Foam backed panel labels
- Handheld portable printers
- Pipe marking tape and duct labels
- Floor marking tapes
- Stainless steel markers and tags
- Engraved labels and signage
- Pre-print and kitting service

- Cable cleats
- Stainless steel cable ties
- All-round banding straps
- Stainless steel cable ties
- Coated steel cable ties
- SS cable tie fixings
- Rubber lined p-clips
- Nylon cable ties
- Specialised cable ties
- Cable tie bases and mounts
- Cable tie clips and fixings
- Fasteners and fixings
- Hole punching systems
- Hole saws and drill bits

- Bootlace ferrules
- Pre-insulated terminals
- Uninsulated terminals
- Copper tube terminals
- Transformer lugs
- Mechanical, hydraulic, and battery crimping tools
- Nylon and brass cable glands
- Constant force springs
- Heat shrink solder sleeves
- Cable jointing kits
- Industrial plugs and sockets
- Fuses and fuse holders
- Din rail

- Heat shrink tubing
- Braided sleeving
- Panel trunking
- Spiral binding
- Non-metallic flexible conduit
- Bare and coated steel conduit
- Neoprene sleeving
- Earthing and protection
- Heat shrink repair kits
- PVC Grommets
- PVC insulating tapes
- Cable covers and ramps
- Lockout Tagout solutions
- Industrial tapes

Added Value Services

- Pre-printed heat shrink wire markers can be kitted to customer specifications
- One-piece tie-on cable markers supplied printed and ready to install at site
- Laser engraved labels catalogued ensuring ease of picking for installation
- Stainless steel and brass markers, tags and discs laser marked
- Capability to produce custom self adhesive vinyl labels and signage

- Ability to kit and box multiple products for easy assembly upon delivery to site
- Combine multiple suppliers and or product lines to one point of invoice
- Let us pull your bill of material requirements in to one shipment
- Combine individual parts and have them shipped under one part number
- Arrange just in time drop shipments to meet your production deadlines

- We supply heat shrink tubing and sleeving in cut piece format
- Heat shrink tubing can be cut to any custom length of your choosing
- Ability to supply small quantity bags or bulk boxes for larger volume
- Industry standard "sticks" of 1.2m length can be supplied made to order
- Fast and efficient service

- Take the hassle away with an automated stock management system
- A fully flexible and bespoke solution to meet customer expectations
- Weekly and monthly stock replenishment options on a day that suits you
- Online, on site ordering available via our secure login portal
- Dedicated stock holding to ensure no stock out situations arise

Our Industry Sectors

Oil and gas

For over 30 years we have supplied major international customers during the construction phase of offshore oil and gas platforms as well as the ongoing maintenance and shutdown programs once operational. Our products are used extensively in the North Sea, the Caspian Sea and Middle East region.

Petrochemical

From oil refineries to chemical plants these hostile environments command products that can withstand the harshest conditions found at such a location. With a vast product offering available from our portfolio of supplier partners we can draw upon years of experience in serving this market with quality products.

Transportation

During the last 25 years we have been a tier one preferred supplier to the design and build production facilities across Europe of railway rolling stock. Many major train operators as well as the build program and maintenance sub-contractor partners use our high performance cable and wire identification products.

Panel building

An organised and aesthetically pleasing control panel is considered an art form by many and all good artists need quality materials. That is why our range of panel trunking, spiral wrap, cable ties, grommet strip, bases, mounts, heat shrink, engraved labels and wire markers are widely used across the industry sector.

Renewables

Considered by many to be a growing market however we have been supplying cable and wire accessories to wind, solar and wave projects for many years. Linked directly to power distribution it is no surprise that many of our customers have been working in this field and as such using our products in this market.

Our Industry Sectors

Harness assembly

Cable and wire harness assemblies are all around from coffee machines to the aircraft we travel in. They vary in complexity, requiring specialised assembly and our customers trust the products within their manufacturing process to meet the application specifications be that extreme temperatures or vibration resistance.

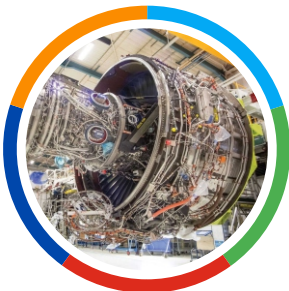

Construction

Mechanical and electrical requirements at any construction site are critical to the delivery of the project on budget and on time. Over the last 40 years we have supplied major infrastructure and construction projects around the world including hospitals, schools, commercial retail developments and nuclear power plants.

Power distribution

The demand for electricity has never been greater and with the expansion of the distribution network through new build projects and extension programs our product range is being used across the industry. From on-site junction boxes to control room panels our cable and wire accessories are being widely used.

Aerospace and defense

Performance and reliability is absolute paramount in this industry and being partnered with industry leading suppliers allows us to deliver quality products with service to match. Not only involved in the supply of components we also offer a part marking service to ensure you have individual component traceability.

Ship building

Working closely with our customers in this sector over the last 20 years our products have become an integral part of many build programs. Our cable and wire identification products and systems coupled with 24/7 onsite support are used across many prestige build programs including the QEC aircraft carriers.

Ordering online

- 1000's of individual products available to order online 24/7 - 365
- Clear, user friendly menu structure for ease of navigation
- Technical information for each product is provided at SKU level
- Download the latest catalogues from our supplier literature store
- Secure payment is provided with our partner Sage Pay

- Open an online trade account to unlock additional features and benefits
