LABEL & IDENTIFY

ETM-M2 Mil-spec heat shrinkable wire markers

expressMARK ETM-M2 sleeves are designed to meet the wire and cable marking needs of customers with high performance requirements. The marks are permanent immediately after printing and remain legible even when exposed to abrasion, aggressive cleaning solvents and military fuels & oils. Suitable for aerospace, military and defence specified applications.

Printer Ribbon Part Numbers

TMS-RJS-RIBBON-4RPSCE	TE Standard black ribbon
1966-RIBBON	TE High performance black ribbon
EMR-0-RIBBON-A	EM High performance black ribbon
EMR-9-RIBBON-A	EM High performance white ribbon

Ribbons are compatible with the following printer models : T200-IDENT, EOS1, EOS2, TE3112, TE3124, T6112DS, T3212 and T3224.

Printer External Reel Holders

PRINTER-UNI-REEL-M
expressMARK external reel holder. Designed to hold and feed large spools of markers to the printer.

UNIVERSAL-REEL-HOLDER
T.E. external reel holder. Designed to hold and feed larger spools of markers supplied on plastic drums.

Inner core design

Sized to the same width as the carrier allowing markers to be loaded directly within the printer media guides.

Write-on side carrier

You can hand write information relating to the printed markers directly on the side carrier. Also shows part number and QA code.

Perforated edges

Remove markers without the need to remove the coloured side tapes. This leads to less mess and a faster install time.

ETM-M2 Mil-spec heat shrinkable wire markers

The ETM-M2 printable heat shrink tubing is manufactured from flame retardant, self-extinguishing, flexible polyolefin tubing optimised for thermal transfer printing. The product is UL 224 VW-1 recognised, CSA certified and complies to AMS-DTL-23053/5 Class 1&3.

Physical

Properties	Test Method	Typical Value
Tensile strength	ASTM D 638	≥14 N/mm ²
Elongation at break	ASTM D 638	≥400%
Longitudinal change	SAE-AMS-DTL-23053	0% - -2%
Specific gravity	ASTM D 792	1.34g/cm ³
Secant modulus	ASTM D 882	65 Mpa

Electrical

Properties	Test Method	Typical Value
Dielectric strength	UL 224	15 kV/mm
Volume resistivity	ASTM D 876	3.1 x 10 ¹⁴ Ω cm
Voltage rating	UL 224	600V
Die-electric voltage (2.5kV x 60s)	UL 224	Pass. No breakdown.

Chemical

Properties	Test Method	Typical Value
Fungus resistance	ASTM G 21	Pass. No growth.
Fluid resistance (after 24hrs at 23°C)	SAE-AMS-DTL-23053	7.25 - 14 MPa

Thermal

Properties	Test Method	Typical Value
Heat shock (4hrs at 250°C)	SAE-AMS-DTL-23053	Pass.
Elongation heat ageing (4hrs 158°C)	SAE-AMS-DTL-23053	≥400%
Copper corrosion (168hrs at 158°C)	SAE-AMS-DTL-23053	Pass
Stability against copper (168hrs at 158°C)	SAE-AMS-DTL-23053	Pass
Low temp flexibility (4hrs at -55°C)	SAE-AMS-DTL-23053	No cracking
Flammability	UL 224	VW-1 pass

Pre-printed Markers Service

You need ETM markers but don't have a printer on site? No problem, we have the answer. Simply email us your data and let us print your markers and dispatch within 24 hours to site. Available to purchase online or contact a member of our team to discuss your requirements. More details on our pre-print services can be found on page 22.

Technical Data

Standard Colours

Yellow and white.

Other colours upon request.

Material

Radiation cross linked polyolefin.
Shrink ratio 3:1

Operating temperature

-40°C up to +135°C.

Minimum shrink temperature

+85°C.

Specifications

Mark permanence

SAE AS81531:1998, point 4.6.2.

Chemical and solvent resistance

MIL-STD-202G method 215J.

Standard

UL 224 125°C 600V VW-1
(recognised file E203950)

CSA 125°C 600V Certified
(certified file 220127)

SAE-AMS-DTL-23053/5 Class 1&3

Storage

Store in original packaging.
Recommended storage environment
is +10°C to +25°C and 45-55%
relative humidity.

Printing method

Thermal transfer

Packaging

Supplied on printer ready reels.

Inner cores are sized to allow
loading inside most printers.

Edge perforations as standard to
allow easy removal of markers.

ETZ-M2 Zero halogen heat shrinkable wire markers

expressMARK

expressMARK ETZ sleeves are ideal for applications where limited fire hazard characteristics are critical. The zero halogen, low smoke and low toxic fume emissions make this product ideal for use in enclosed spaces such as mass transit, marine and industrial installations. Marks are permanent immediately and remain legible when exposed to abrasion, aggressive cleaning solvents.

ETI Insert wire markers

expressMARK ETI is a two-part system allowing the creation of permanently printed markers which are then inserted into clear carriers and subsequently mounted on to the wire or cable. The printed strips can be replaced post-termination when re-labelling is required and the clear carrier gives added protection from dust and grime. Carriers can also be applied during wire termination and markers inserted at a later date.

Product Properties

Markers: Polypropylene zero halogen film, 250 micron

Carriers: PVC clear

Resistant to water, humidity, alcohol, oil, grease and miscellaneous cleaning agents.

Applications: Electrical panel builders, junction box, cabinet and post-termination labelling applications.

Ribbons are compatible with the following printer models :
T200-IDENT, EOS1, EOS2, TE3112, TE3124, T3212 and T3224.

i10-L Insert wire markers

expressMARK i10-L is comprised of a printed strip, which is inserted into a protective clear carrier. The clear carrier can be applied to wires and cables pre-termination to allow post termination insertion of the printed strip. The strips can also be replaced when re-labeling is required. The clear carrier protects the marker strips from dust and grime and are available in a number of sizes to cover a wide range of cable diameters.

1966-RIBBON	TE High performance black ribbon

Ribbons are compatible with the following printer models :
T200-IDENT, EOS1, EOS2, TE3112, TE3124, T3212 and T3224.

Printers

- A range of thermal transfer printers that provide outstanding print quality.
- Designed with the operator in mind making them user-friendly and easy to operate.
- Ribbon and media loading is made simple due to the ease of access.
- A small footprint yet rugged construction make for the perfect on-site marking system.

Plug & Play Systems

- We offer “plug and play” printer systems that include printer, laptop and pre-loaded software.
- Printer drivers, labelling software and product templates are pre-loaded before despatch.
- All ports and plugs are marked for ease of set up upon arrival at site.
- The perfect “standalone” marking system solution. Call a member of our team to discuss.

Ribbons

- Specially formulated ink ribbons that are specific to the media being printed.
- The inks meet the most rigorous of mark permanence industry standards.
- Correct ribbon and printer combination ensures excellent print quality at all times.
- Ribbons and printer compatibility are listed on each product page.

Printer Ribbon Part Numbers

TMS-RJS-RIBBON-4RPSCE	TE Standard black ribbon
1966-RIBBON	TE High performance black ribbon
EMR-0-RIBBON-A	EM High performance black ribbon
EMR-9-RIBBON-A	EM High performance white ribbon

Ribbons are compatible with the following printer models :
T200-IDENT, EOS1, EOS2, TE3112, TE3124, T6112DS, T3212 and T3224.

Software

- Labelling software is supplied pre-loaded with product templates.
- User friendly platform in “What you see is what you get” (WYSIWYG) format
- Options to enter data manually or import via a database saving you both time and money
- Fully compatible with Windows operating systems. Supplied with unlock dongle.

Software Part Number

WINTOTAL-X-DONGLE	WinTotal label software c/w dongle
--------------------------	------------------------------------

Please note the “X” in the part number above should be replaced with required version.
For example WINTOTAL-6-DONGLE

Support

- A dedicated in-the-field technical support team is available to all our customers
- FREE installation is offered with all newly purchased on-site printing systems
- FREE on-site training of your relevant personnel
- FREE lifetime technical support for any customer purchasing blank media to print

Online

- Remote assistance can be provided via platforms such as TeamViewer and Skype
- Visit our YouTube Channel www.youtube.com/user/expressMARKid
- Printer demonstrations and helpful “How to” guides available at our YouTube channel
- Our website contains demo videos. Simply select “the Videos” tab on the product page.

T200-IDENT

Key Features

- Light-weight
- Automatic calibration
- Simple ribbon and media loading
- Superior print position accuracy
- Cutter & perforator options available
- Touch screen

Suitable Products

- Heat shrinkable sleeves, cable markers, and labels
- Ideal for low to medium volume printing

Printable Product Dimensions

- Heat shrink sleeves from 2.4mm unshrunk diameter
- Print width max: 108 mm
- For labels: 10 to 110 mm wide
- For labels: 5 mm minimum height

Printer Dimensions

- 322x189x253mm (DxHxW)
- Weight: 4 kg

Printing Method

- 300dpi Thermal Transfer

Interfaces

- USB 2.0 (Full Speed)
- LAN 10/100 Base (Ethernet)

K-TYPE Pre-printed cable markers

K-Type markers are designed to offer flexibility when it comes to wire and cable identification. Used to identify wire bundles, cable, pipes and conduit, the oval shaped profile has been designed to allow markers to be easily slipped onto a carrier strip and attached using cable ties. K65 markers are ideal for post termination applications or where retrofitting is required.

One standard size of marker, with PVC carrier strips that can hold up to 18 characters. Standard colours are yellow or white with black legends. Colour coded option available.

Features and benefits

- K-Type markers are a cost effective solution for many commercial wire identification applications
- Self-extinguishing
- Resistant to key industrial fluids, including those used in mass transit, aviation and military
- Versatile marking system for cables, cable bundles and conduit
- Elliptical marker profile allows easy fitting to carrier strips

Z-TYPE Pre-printed wire markers

Z-Type markers are individual push-on markers used to identify wires and small cables permanently. The markers are manufactured using PVC and designed with an expanding profile, enabling each marker to accommodate a wide range of wire and cable sizes.

Z-Type markers are a simple, cost effective solution for many commercial wire identification applications,

The most popular colour option is white marker body with black marking and available as loose piece in boxes or on reels. Can also be supplied with a yellow marker body with black marking.

Features and benefits

- Z-Type markers are a cost effective solution for many commercial wire identification applications
- Self-extinguishing
- Resistant to key industrial fluids, including those used in mass transit, aviation and military
- 9 sizes available covering wire diameters from 1.5mm to 12.7mm
- Applicator wands available for easy marker installation

Z-Type Markers - straight cut in boxes

Pre-print Service for cable and wire marking

For 30 years our pre-print service has provided labels and signage to customers. Our in-house team produce finished identification products, from simple individual markers to large complex kits, all delivered to you through a service, designed to meet your demands and ensure a prompt turnaround.

Data manipulation - send us your data and allow us to extract the relevant information for you. We can sort your data by set, batch, field area or simply in alpha-numerical order.

Material performance - with a huge range of materials at our disposal we are sure to have a solution to meet your specific requirement and environmental conditions.

Machining capabilities - from CNC laser cutting of raw material through to detailed finishing within our in-house machine shop gives us control of the complete process ensuring a high standard of finish.

Kitting and picking - finished product is catalogued to your instruction which leads to ease of pickability and improved productivity at site. A simple discussion with you now can lead to many man hours being saved at site.

Dispatched on time - with the ability to deliver worldwide, this service requires an efficient service driven team to ensure on time deliveries. A fast turnaround to meet customer delivery expectations with unbeatable customer service.

Pre-print Service for terminal markers, labels and signage

Self-laminating Labels

- Widely used for post termination applications within networking installation
- Also used for rework within existing panels and electrical installations
- The clear “tail” wraps to overlap and provides protection for the printed text
- Text is “sealed” and protected from solvents, chemicals and the elements
- Email your required data and we shall pre-printed and despatch next day

Push Button, Switch and Panel Labels

- We can pre-print push button, rotary switch, fuse rack and panel labels
- Material options include semi-rigid, polyester and vinyls
- Colour options available for both material and printed text
- All labels can be supplied with self adhesive backing for ease of installation
- Got a specific requirement? Send us a drawing and let us provide options

Warning Signs and Labels

- Critical within all industry sectors to the safety of your onsite personnel
- Industry standard warning, flash and voltage signage all available
- Used on electrical panels, junction boxes, machinery and onsite equipment
- Our bespoke service can accommodate unique text, layout and size of labels
- The self adhesive vinyl material is suitable for indoor and outdoor applications

Health and Safety Signage

- Extensive range of health and safety signage
- All commonly used H&S signage can be provided
- Mandatory, Prohibition, Fire Exit, Warning, Smoking, CCTV and more
- Self adhesive vinyl, semi-rigid and Photo-luminiscent materials available
- Customer specific layouts can also be accommodated

Terminal Markers

- Terminal markers can be supplied pre-printed with your data
- A range of markers available to suit industry leading brands
- Including Weidmuller, Entrelec, Wago, Siemens, Legrand and Telemecanique
- Fast, efficient, hassle free service
- Simply email your data and let us do the rest.

Engraved Labels

Our engraved labels feature a classic non-glare, highly durable matte finish. UV stable and heat tolerant colours make these the engraved label material of choice for customers. The engraved labels offer a flexibility that is far superior to traditional traffolyte materials and this is why they have become an industry wide standard.

Common applications include :

Labels, plates, tags and markers

Valve and disc tags

Name plates, face plates and door signage

Junction box and control panel labels

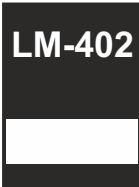

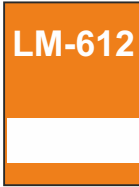

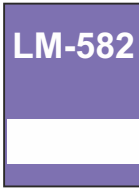

Cable tray node point labels

Facia and mimic plates

Switch and push button labels

One-off specials to large complex projects

Fast, efficient and competitively priced

Technical Data

Colour

Wide range of colours

Material

Micro-surfaced impact Acrylic

Thickness

1.5mm (standard)

3.0mm (optional)

Operating temperature

-40°C up to +90°C.

Features and Benefits

Flexible

True type fonts

Graphics & images

Single or multiple lines

Interior and exterior use

UV stable

Permits fine engraving

Adhesive backed option

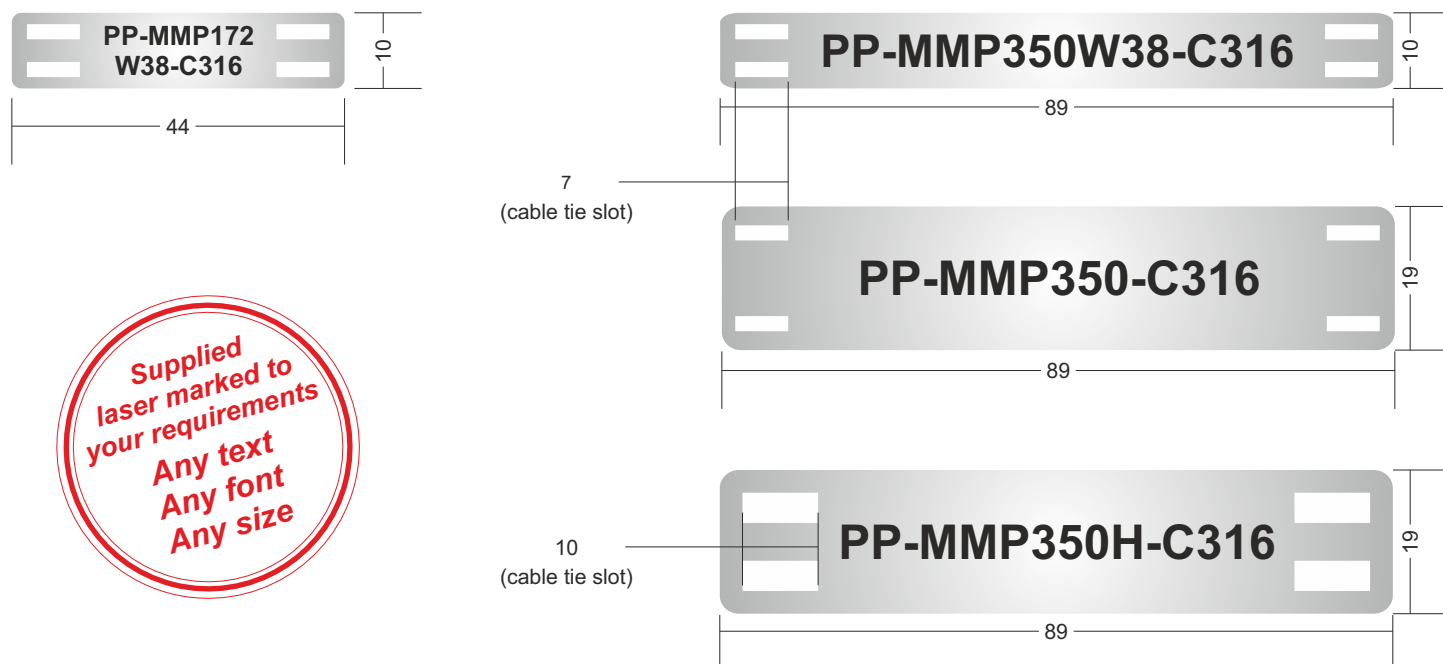

Can supply with fixing holes

Pickability

Labels are supplied in a catalogued fashion for ease of picking upon arrival at site.

Stainless Steel Marking

Stainless Steel 316 Cable Markers

Stainless Steel 316 “Permark” Raised Shoulder Cable Markers

Stainless Steel Tags, Disc and Marker Plate (complete with 6.3mm fixing holes)

Stainless Steel markers, plates and tags

Stainless steel markers meet the requirements of the most hostile environments. Combined with our laser marking process that has been developed over 20 years we deliver a final product that is among the very best to be found in the marketplace today. With a clear and legible black mark our products can be found on land, in the air and at sea. We serve many industry sectors including offshore oil and gas, chemical plants and refining, rail, mining, and aerospace.

Ammonium Hydroxide (20%)	No effect	No effect	No effect	No effect

*Acid dissolves steel tag and test was not run over 12 hours

After 1 hour acid dissolved 0.2767gms off of steel tag (4.7%) - no effect to mark

After 12 hours acid dissolved 1.8057gms off of steel tag (30.6%) - no effect to mark

**Acid discolours after approximately 96 hours - mark appears slightly discoloured

Technical Data

Colour

Metallic

Material

Marine Grade SS316

Standard Grade SS304

Operating temperature

-80°C up to +538°C.

Specifications

SAE AS81531 4.6.2

(Legible after 50 rubs)

MIL-STD-202F M215J

(Legible after 30 strokes)

Marking Capabilities

Bold or standard letters

Lower and upper case letters

Choice of True Type Fonts

Lines, boxes and shapes

Logos and graphics

Data-matrix and barcode

Multiple lines of text

Variable font size on single marker

Test Results

Markers were laser marked with CO2 laser prior to testing.

Markers were totally immersed in each test solution and results recorded as per table opposite.

Stainless Steel Cutting & Marking Services

Stainless steel plates designed by you and manufactured by us.

Our CNC laser delivers an unrivalled service in custom plate manufacturing.

We laser cut material up to 3mm thick in a choice of materials and finishes.

Radius corners, fixing holes, switch and lamp openings can all be achieved with ease.

A complete solution in stainless steel, from one-off plates to large scale projects.

All services are delivered in-house giving us complete flexibility to meet your demands.

Laser cutting

- Any size! Any shape!
- Metal, wood or plastic
- Up to 3mm thick stainless steel cutting capabilities
- SS316 and SS304 grades as standard
- Brushed, matt and polished finishes
- Hole cutting options available

Laser marking

- BOLD block letters, upper & lower case characters
- True Type fonts in single or multiple lines of text
- Data-matrix, barcoding, borders, logos and graphics
- Variable font styles and sizes on the same plate
- Single / one-off tags for adds, mods, changes
- Alphanumeric and sequential numbering ability

Part marking service

Have stainless parts that simply need marked?

Send us the parts and we'll mark them for you.

e xpress offer a part marking service

a ny size, any shape, any thickness

s imple, quick response time and all hassle free

y ou send us the parts, we mark them - **easy!**

Mechanical engraving & paint filling

- In-house capability with no minimum order quantity
- Option to combine laser marking and engraved paint filling

Laser marked stainless steel cable ties

We laser mark directly on to stainless steel cable ties.

A solution for weight or space saving where identification is required.

The tie can double as a fixing and marking solution in one.
