Pluggable

The TE Connectivity plug is the most compact on the market thanks to the punched U-shaped linking bar allowing direct conductor contact.
TE Connectivity Patented design!

The lyres are made of copper alloy in order to offer maximized mechanical elasticity resistance
(superior to 50 matings/unmatings)

The TE Connectivity pluggable terminal blocks have successfully performed the marine environmental tests and meet the most severe rolling stock requirements in 3 axis vibrations and shock resistance (for PI-Spring pluggable terminal blocks versions)

The chamfer shape guarantees auto-centering and mechanical integrity of the plug when inserted into the pluggable terminal block
