# TIMBERMATE® SCREWS & FASTENERS

The **Timbermate®** family of Screw & Fastener products offers a wide range of finishes and head styles.

**LEADING BRAND | INNOVATION | VALUE FOR MONEY**

## Welcome to the TIMBERMATE® ...

### ...Screw & Fastener Product Guide

Affectionately known as The Good Screw Guide, this TIMBERMATE® publication from Harrison & Clough Ltd highlights the features & benefits of the high quality of screws available nationally.

Products in the TIMBERMATE® livery are manufactured to H&C's specified standards. They are not run-of-the-mill, basic products but good quality products designed for the professional user. When a product is purchased in the TIMBERMATE® "Green box" professionals know they are getting a good, no nonsense, product to get the job done.

The TIMBERMATE® brand is one of 3 'MATE' brands, with MASONMATE® and METALMATE®. This product range is for fastening fixtures primarily in Timber, but much of the range is multi-purpose to suit ever-changing building materials and can be used in Hard/Soft Woods, MDF, Chipboard, Dry Lining/Plasterboard and with plugs into Masonry.

**the only choice for the true professional!**

## BOX & LABEL INFORMATION

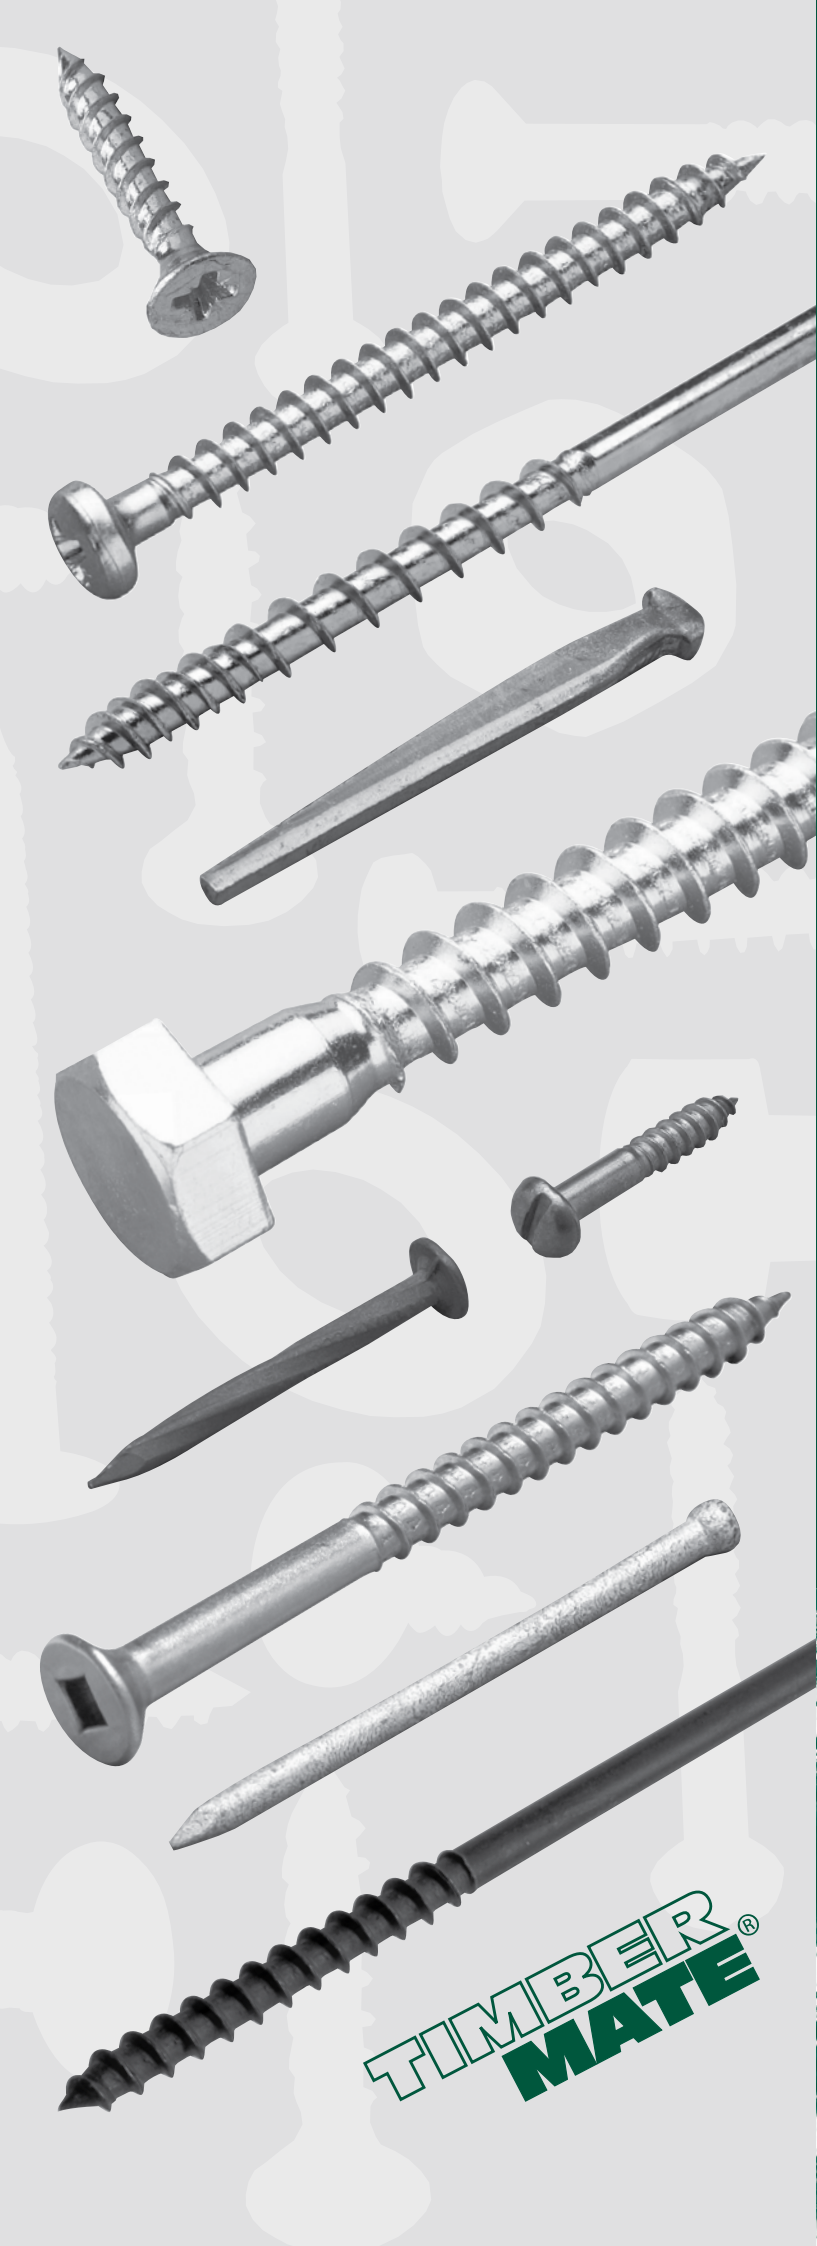

- Strong & durable box construction.
- Easy to open – secure to close.

- Label folds underneath box to help seal box

Fully threaded to 1 1/4"  
30 outers per pallet

Deep Cross Drive Recess.

Double Countersunk for deeper recess and added strength.

Through Hardened for ductility.

40° Twin Thread for speed of insertion and greater pull out resistance.

Zinc plated to 5 microns.

Sharp point for fast start.

The most popular screw in the UK. For general applications into softwood and various types of hardwood.

Hardness:  
Core = Min. 270HV - Max. 420HV,  
Surface = Min. 450HV - Max. 720HV

Made with C1022 Premium Steel.

Deep Cross Drive Recess.

Timbermate® combined specifications result in a truly multi-purpose screw. Consistently achieving efficient results in chipboard, MDF, hardwood, plastic and thin metal sheet.

Double Countersunk for deeper recess and head strength.

Lubricated for smooth insertion. Non toxic and consumer friendly clean and non greasing. Approved lubrication in contact with drinking water.

40° Single Thread for high pull-out retention.

Sharp point for easy penetration  
Zinc and Yellow passivation to 5 microns CR6.

**TIMBERMATE®**

**3 x 12**  
Single Thread Pozi  
Double Countersunk  
Woodscrews  
**Zinc & Yellow**

Qty: 1000    Code: 0108T390012

Hardness:  
Core = Min. 270HV - Max. 420HV,  
Surface = Min. 450HV - Max. 720HV

Made with C1022 Premium Steel.

Also available in Zinc & Clear.  
(product group 0107)

Classic slotted recess. 

Countersunk screw for snug-fit and neat finish.

High grade C2108 Brass for high corrosion resistance and strong tensile strength.

Single thread and sharp point for ease and speed of insertion.

Timbermate® screws are made from high grade C2108 Brass alloy to BS1210 Standards.

Pilot hole recommended for hardwoods to avoid wood split.

Use Brass in sanitary areas to utilise the materials non-corrosive attributes.

Use Brass alloy with other Brass products, such as hinges. Two dissimilar metals can cause electro chemical activity leading to corrosion.

Zinc Plated

**3.5 x 25mm**

DRILL POINT DRY WALL SCREWS

FINE THREAD, PHILLIPS BUGLE HEAD

Qty: 1000 Code: Z0003T3525COL

**3.5 x 25mm**

Code: Z0003T3525COL  
REF: Q002 123456  
Dry Wall / Light Steel to 2.5mm

Needle point dry wall screws, sharp for quick and easy penetration, self drilling point screws, for ease of penetration.

Bugle headed, ideal for flush or slightly recessed finish in plasterboard and no paper tearing, common 'Phillips' type drive with deep recess giving more purchase to the driver.

Screws on plastic strips of 50 screws, designed for the popular manufacturers' collated drivers/guns, strips are non-jamming and give firm engagement in machine.

Screws made from premium quality steel with regular quality assessments to ensure consistency throughout each batch.

Screw Hardness:  
Core = Min. 380HV - Max. 450HV,  
Case / Surface = Min. 680HV - Max. 800HV

Boxes of 1000 screws – labelled on end and side for easy clear selection or storage.

### ELIMINATES THE NEED TO CHOOSE BETWEEN SINGLE OR TWIN THREAD

**⊕ Cross Recess**  
Industry standard - no searching for a driver bit. Swift & easy bit location.

**Part Thread**  
Eliminates 'jacking' where a full threaded screw tends to pull apart the jointed material.

**TS Thread (Exaggerated)**  
Utilises benefits of both twin and single thread on the same screw.

**Single Coarse Thread**  
Drives in without reaming a hole in the material, enabling a swift efficient fix with high pullout retention.

**Twin Thread**  
Penetrates the dense surface and balances the screw with two points of pickup that start right at the tip of the screw.

**Ribs**  
Cutting edge ribs ream and self - countersink the screw.

**Collar**  
Gives strength to the most vulnerable point of the screw.

**Tri-Lock™ Threadform**  
Three flats on thread means less surface contact between screw and material when driven in which means less battery wear, easier to insert and the screw will not work loose over time as the material flexes under use.

**CPT™ Hardened**  
Permeated case with through hardening allows the perfect balance between core ductility and surface toughness - with strength of a high tensile bolt the screw will not snap.

Premium packaging for easy product selection.

SCREWS DESIGNED BY THE SPECIALIST FOR THE SPECIALIST

# CUP SQUARE HEX BOLTS

Also known as carriage or coachbolts these fully threaded cup square hex bolts conform to DIN555 standards and come complete with nuts.

(fully threaded to 150mm, longer bolts part threaded with 150mm).

Full size range available M2 - M30  
Available in imperial sizes.  
Available in Stainless Steel, Mild Steel and Brass.

Full size range available M2 - M30  
Available in Stainless Steel, Mild Steel and Brass.

- Fuel cells included to suit the quantity of nails per box.
- Tough box is fitted with handy strong reinforced handle.
- Nails fit all popular first fix guns.
- Top quality paper collation system for best market performance.
- Sharp pointed nails for easy penetration.
- D-head clipped design head to maximise number of nails per strip and reduce re-loading times.
- Electro Galvanised plating for indoor and covered outdoor uses.
- Bright finish suitable for indoor applications.

### APPLICATIONS

- Timber frame erections
- Refurbishment
- Floor Boarding
- Flat Roofing
- Shuttering
- Chipboard
- Packaging
- Paneling
- Cladding
- Noggins
- Decking
- Fencing
- Soffits
- Joists
