

EGS Serrated Grommet Strip

EGS is a serrated grommet strip providing a flexible edging solution used to protect cables and wires from sharp panel edges in various applications, particularly in electrical and industrial settings.

The serrated design provides flexibility, allowing it to fit circular or irregular-shaped openings without the need for adhesives.

The strip can be cut to the required length and is designed to grip the edge of the panel, for quick and easy installation.

Supplied in easy to handle 10 metre coils.
